CABINET NOTE

C.118/60-61.

Subject:- Proposal for establishment of Boys Town to help poor boys and strays in the State of Mysore

---

The question of re-habilitation of the abandoned, neglected and uncared for boys and girls has become very urgent in view of the social implications. It is stated that there are over 5,000 boys who wander about the town in Bangalore alone without any home having no ostrensible means of livelihood. They are likely to fall into evil practises. It is responsibility of the Society to do something for the amelioration of their conditions.

In this connection, Shri Romulus, Honnegowdanahalli, Talavedi P.O., has made an offer for starting a boys town in the Mysore State. A note on this scheme given by him who belongs to the Franciscan Brothers Society registered under Act XXI of 1860 is enclosed. The Society has been working in the line for the last 80 years and is running an orphanage for about 1000 inmates and 1000 outsiders with a high school in the suburbs of Bombay and all these inmates are picked up from the streets of Bombay- waifs and strays - and fed and looked after by the society. They are not only educated by them, but are also taught handicrafts and other industries so that they may settle down in life as respectable citizens. The Society to-day is mostly run by the Indian Nationals- about 90% of its members are Indians and the remaining 10 % are Germans who have already become Indian citizens. Shri Romulus has stated that once the scheme is put through, the Society will try to get financial help and lot of equipment from West Germany in due course. All that the Society wants is the land (demarcated in red chalk in the map placed below) and about 500 acres in the nearby Biligiri Rangan hills in Chamarajanagar Taluk, Mysore District.

There is no doubt that the question of re-habilitation of the abandoned boys and girls is very urgent and it isvery necessary that the location should be in a beautiful rural surrounding. Once the Home is started, we have to see that the boys and girls are educated properly, fed and clothed and brought up in a very healthy atmosphere. There should be enough agricultural land to grow their food, grazing land for the dairy farm, land for the poultry farm, water facilities, power facilities, communication facilities, etc. A very large area will be necessary for residential accommodation, for agricultural purposes, for animal husbandry purposes and for reserve land for timber purposes, play-grounds, etc., Apart from agriculture, some crafts will also have to be taught so that the boys and girls can earn their livelihood when they grow up. A scheme of the above type can be put through only by people dedicated to such service and who have extensive experience of such work. The Society has stated that they have made a survey of the land required, examined the soil, the water and other facilities and they are satisfied that the Scheme will work will.

In the circumstances, the offer made by Shri Romulus is well worth consideration. All that the Society requires is -

1) The land (demarcated in red- chalk in the map placed below) in one solid block, bounded by roads on all the four sides, to be given to them at a nominal rate in Chamarajanagar Taluk;

/ Contd.... 2.

2) Another 500 acres in Biligirirangan hills which is now unapproachable, to be given to them with a view to grow some commercial or cash crops, if possible, as a source of income for the Boys Town;

They do not intend to take any other financial aid from the Government, except what is available to similar organisations under the various Grant-in-aid Codes and Rules of the Government, viz., for Schools, Dispensaries, etc.

The Chief Minister has ordered that this question may be discussed in the regular cabinet. If the Cabinet approves, sanction of the Council is solicited to

1) The Establishment of a Boys Town in Mysore;

2) The grant of the land in one solid block bounded by roads on all the four sides (as shown in the map) to the Society at a nominal price in Chamarajanagar Taluk;

3) The grant of another 500 acres in Biligirirangan hills, which is now unapproachable, to grow some commercial or cash crops, if possible, as a source of income for the Boys Town;

4) Grant of suitable grant-in-aid, where admissible, as available to similar organisations under the various Grant-in-aid Codes and Rules of the State, viz., for Schools, dispensaries, etc.,

ENCLOSURE TO NO.C. 118/60-61.

Proposal for Establishment of Boys Town to help poor boys and strays in the State of Mysore.

Site: Taluk of Chamarajnagar, Mysore District, by the Fransciscan Brothers Society registered under Act XXI of 1960.

Name: Malliapuram Boys Town.

Objects: To help poor and down-trodden boys and afford them a a chance to become loyal, self-respecting and useful citizens and take all steps necessary and incidental to the attainment of this objective.

Aims General Education, Advance Agriculture, Arts, Handicarfts and any other useful scheme suited to the ability and aptitude of the individuals.

Requirements:- About 3000 acres of land in the Plains and about 500 acres in the nearby hills.

Details: Out of these 3000 acres, the needs to be met are:

(a) About 500 to 700 acres for housing and accommodation to private families to be employed, entrusting to them plots of small size on proper terms for rendering service to the institution and to maintain themselves.

(b) About 50 to 60 acres for buildings, premises, playgrounds etc.

(c) About 500 acres of Woodland for fuel purposes to be felled in small plots in rotation spreading over a period of 20 years and rehabilitating the same ensuring continuity of the facility for fuel purposes.

(d) About 500 acres grazing ground and special attention on cattle rearing and associate matter.

(e) The remaining 1400 acres to be use for advanced agriculture, special methods of cultivation and try cultivation of newer crops and do research work.

(The terrain as it exists to-day is absolutely difficult. The soil will have to be tamed, lay-out will have to be done to suit various purposes. This implies expenditure of money, time and energy on a systematic and studied scientific method)

It will be necessary sustain the institution and inmates thereof with regard to cultivation, agriculture and useful professions for the inmates during the course of their stay. They may have to be rehabilitated and provided for their continued work to maintain themselves and their families when they are settled down in life by marriage. The import of the scheme should envisage permanent settlement of these boys. It will be an ideal scheme for reclaiming the boys who cannot be otherwise having a chance to lead a normal life. There are 5000 of them in Bangalore City alone, sleeping on the pavements and practically living like animals with no one to take interest in them. This scheme is not to give any temporary relief but to reclaim these unfortunate boys and girls of society as a continuous process and make them into useful and respectable citizens. The scheme envisages not only training and educating them but they will be looked after right through their lives as far as possible and enable us

/ Contd....2.

to give them a profession in life to earn their livelihood and stand on their own legs after they have gone through the Institution. Ultimately, we envisage that this Boys Town will be a Model to the State and many more can be started on this pattern.

Power: Electric Power would be essential, but available within 6 to 7 miles.

Water Supply:- There are two small streams going through the land in question. This will supply water also for irrigation for about 10 months in the year. Drinking water wells will have to be dug.

Personnel: Qualified personnel of our Society (about 6 in number) would be needed to run the establishment efficiently. This will be found.

Finance: Financial help for activities like Education, Handicrafts, Small Industries is expected to the extent that other agencies are given under the Grant-in-Aid Rules of the Government and nothing more, as a special grant.

No 1035(M)/60-61

Feb. 16, 1

Heard

On 1st of January 1961, I visited, along with the D.F.O. Mysore, the area near Punjur State Forest in Chamarajanagar taluk, asked for establishment of Boys Town in. Thereafter I instructed the D.F.O. Mysore to send a detailed report on the following points in respect of that area;-

1. What is the extent that has been already handed over for agricultural and other purposes in that area;
2. What is the area which can be brought under cultivation;

& 3. what are the species that are grown there.

Subsequently, I told the C.C.F. also about this and requested him to expedite the said report. The report has not been received so far.

I would like to have a detailed report on the above points within a week.

From

B.Romulus,
Honnegowdanahalli,
Talavadi P.O.

To

The Minister for Finance,
Government of Mysore,
Bangalore.

Sir,

I had occasion to discuss with you about the starting of a Boys Town in the Mysore State. A note on the scheme is appended herewith.

I belong to the society registered under the Act of 1860 and our Society has been working in the line for the last 80 years. We are running an orphanage for about 1000 inmates and 1000 outsiders with a high school in the suburbs of Bombay and all these 1000 inmates are picked up from the streets - waifs and strays - and fed and looked after by us. We not only educate them but also teach them handicrafts and other industries so that they may settle down in life as respectable citizens. Although this is a society started by West Germans with India as Headquarters, about 90% of the members are Indians and out of the remaining 10% a few of us are Germans who have already become Indian Nationals. I am myself an Indian National. We have the necessary experience to run a boys town on a large scale. As mentioned in the enclosed note we will try to get financial help and lot of equipment from West Germany in due course. Once we get the scheme going we are confident that we will not only make a success of it but we will try to make a model of it for others to follow. If our request for 3000 and odd acres of land is conceded early we will get on with the job as quickly as possible.

p.t.o.

13

You are aware that we have been working in Chamarajanagar area for the last 30 years.and We are also aware of your sympathy and anxiety to do some good to rehabilitate the poor waifs and strays of Mysore State and we feel certain that you will give us the necessary land very early to enable us to get on with the work.

Thanking you,

Yours faithfully,

(B.ROMULUS)

It will be necessary to sustain the institution and inmates thereof with regard to cultivation, agriculture and useful professions for the inmates during the course of their stay. They may have to be rehabilitated and provided for their continued work to maintain themselves and their families when they are settled down in life by marriage. The import of the scheme should envisage permanent settlement of these boys. It will be an ideal scheme for reclaiming the boys who cannot be otherwise having a chance to lead a normal life. There are 5000 of them in Bangalore City alone, sleeping on the pavements and practically living like animals with no one to take interest in them. This scheme is not to give any temporary relief but to reclaim these unfortunate boys and girls of Society as a continuous process and make them into useful and respectable citizens. The scheme envisages not only training and educating them but they will be looked after right through their lives as far as possible and enable us to give them a profession in life to earn their livelihood and stand on their own legs after they have gone through the Institution. Ultimately, we envisage that this Boys Town will be a Model to the State and many more can be started on this pattern.

Power: Electric Power would be essential, but available within 6 to 7 miles

Water Supply: There are two small streams going through the land in question. This will supply water also for irrigation for about 10 months in the year. Drinking water wells will have to be dug.

Personnel Qualified personnel of our Society (about 6 in number) would be needed to run the establishment efficiently. This will be found.

Finance. Financial help for activities like Education, Handicraft-Small Industries as expected to the extent that other agencies are given under the Grant-in-Aid Rules of the Government and nothing more, as a special grant.

DRAFT COUNCIL NOTE.

The question regarding release of forest lands for the establishment of a Boys Town in Mysore was discussed to-day in the chambers of the Secretary to Government, Agriculture and Forest Department. The following were pr-esent:-

Shri T.V. Reddi,
Secretary to Government, Agri. & Forest Dept.

Shri G. Mathias,
Secretary to Government, Finance Department.

Shri Nasiruddin Ahmed,
Deputy Commissioner,
Mysore District, Mysore.

Shri Shri Krishna,
Under Secretary to Government,
Planning, Housing & Social Welfare Department.

Shri K.G. Bellubi,
Senior Inspector of Certified Schools.

Shri S.V. Prabhu,
Under Secretary to Government,
Agri. & Forest Department.

After general discussions on the issues involved, it was decided that (i) a decision regarding release of forest land could be taken only after spot inspection of the area by the following officers:-

Secretary to Government,
Agriculture & Forest Department.

Secretary to Government,
Finance Department.

Chief Conservator of Forests
in Mysore, Bangalore.

One Retired Chief Conservator
of Forests.

Deputy Commissioner,
Mysore District, Mysore.

It was also agreed that Brother Romulus and Brother Williams should be requested to accompany the officers at the time of the inspection.

Serial No.

(ii) the requirements of 3,000 acres in Chamarajanagar Taluk be, if necessary, limited to smaller extents depending upon the facilities available, these areas being contiguous to the areas, which are under cultivation and being capable of being converted into a viable unit as would give them the necessary facilities to locate the Boys Town and cultivate the lands taking into consideration the availability of drinking water, means of communications, power supply, etc. area needed for khedda operations will be excluded.

(iii) the areas round about Biligiri Ranganna's Hills be inspected and then the question of release of 500 acres decided after inspecting the teak plantations. ~~The area to be released will be exclusive of the area, which is needed for khedda operations. If there be any deficit in the total requirements of 500 acres, other suitable areas to the extent of the deficit will be selected, these areas being contiguous to the land now asked for.~~ The area to be selected will be adjoining the present Tea estates.

and (iv) these areas be visited from 2nd to 5th December 1961 the party leaving Bangalore at 1.30 P.M. on

Establishment of a Boys Town in Mysore.

DEPUTY SECRETARY TO GOVT. AGRICULTURE & FOREST DEPTT. No. 2763/F 15 NOV 1961

AGRICULTURE & FOREST SECRETARY GOVERNMENT OF MYSORE No. 7588 15 NOV 1961

Note.—Contn. Sheet

ESTABLISHMENT OF A BOYS TOWN IN MYSORE STATE.

F.M. would please remember that he has been thinking, for the last two years, of a sort of a Boys Town for the waifs and strays in the Mysore State. We are told that there are about 5000 of them in the City of Bangalore alone. Most of these children dwell on the pavements, almost leading an animal existence in a City like Bangalore. I had occasion to discuss this question with some of the officers in the Education Ministry in Delhi and with a number of other prominent people including Srimathi Kamaladevi and Fr.J.D'Souza, who was a Member of Parliament and also the Indian Representative at the United Nations and who has travelled widely all over the world and made a first-hand study of these institutions, as to how we should go about. I also got hold of all the literature about the Boys Town in Nebrasca, started by a poor Irishman Fr.Finigan. In this connection, it should be noted how difficult it is to push through a new idea. For a decade or two, Fr.Finigan was the object of ridicule in the United States and Europe. He was openly criticised and openly persecuted; but in the end when he died of pneumonia at Berlin at the end of the II World War, all the nations flew their flags half mast both on land and at sea in recognition of the great services rendered by him to the waifs and strays. He built a home for them and reclaimed them for society.

Our original idea was to start a home near about a town. But almost all the experts think that it will be better to have it in a beautiful rural surrounding. Once we start a home, we have to see that the boys and girls are educated properly, fed and clothed and brought up in a very healthy

atmosphere. The feeding alone involves a lot of processes. They should have enough agricultural land to grow their food, grazing land for the Dairy Farm, land for the Poultry Farm, water facilities, power facilities, communication facilities etc. etc. The extent of the land will depend upon the number of boys and girls we plan to take. If we plan for a thousand boys and a thousand girls, a very large area will be necessary for residential accommodation, for agricultural purposes, for animal husbandry - purposes, reserve land for timber purposes, extensive playgrounds etc. A Boys Town of 1000 Boys and 1000 Girls cannot solely depend on agriculture alone. They will have to be taught some crafts so that when they grow up, they can earn their own livelihood as respectable citizens of the State. A scheme of the above type can be put through only by people dedicated to such service and who have extensive experience of such work.

The German Brothers who have been working in Chamarajanagar Taluk for the last 20 or 30 years have been doing this work and I believe they are well-known to F.M. At my request they have been studying the possibilities of such a Town to be set up in Mysore State. About 3 months back, we examined some private land to the extent of about 500 to 700 acres in Hassan and they were definitely of the view that the land was not suitable. Subsequently, I had this whole land inspected and the soils analysed by officers of the Agricultural Department and they also came to the conclusion that these 700 acres were not suitable and they would not sustain about 200 boys and it is not worthwhile. I have already

mentioned this to the F.M. After extensive investigation they have come up with this proposal which I have placed below along with the necessary maps. They have asked for roughly 3000 acres of land in the Chamarajanagar Taluk on the borders of the Madras State. They tell that they have made a survey of this land, examined the soil, the water facilities and the power facilities and they are satisfied that they could sustain about a 1000 boys and 1000 girls on this land and further 75 to 100 families who will be settled down there on the land and looked after by them. They intend to select these families from among the Soligas and Lambanis and build up a colony. They will also be able to start some sort of industries, handicrafts, sericulture etc. and train up these boys and girls in useful professions. The height of the place is about 2500 ft. The climate, it appears, is as good as that of Bangalore, with about 45 to 50 inches rainfall. There are two streams going through the land and power is available nearby, about 6 to 7½ miles from the place. At present this land is just unsurveyed uncultivated land.

From the humanitarian and social point of view, I am definitely of the opinion that the State should welcome such a scheme and make a start. I have known intimately the work of this Society of German Brothers in Delhi where they have done very remarkable work and I have no doubt that the Boys Town which they intend to build up will be a model for our whole country.

All that the Society requires is:-

(1) These 3000 acres of land in one solid block bounded by roads on all the four side, to be given to them at a nominal rate;

(2) Another 300 to 400 acres in the Bilgirirangan hills, which is now unapproachable, to be given to them with a view to grow some commercial or cash crops, if possible, as a source of income for the Boys Town.

(3) They do not intend to take any other financial aid from the Government except what is available to similar organisations under the various Grant-in-Aid Codes and Rules of the Government; for example, for schools, dispensaries etc.

They have already started a small institution in Guntapuram in this area where they are building a small middle school and doing some agricultural work. They say that they know the locality and the people so well that if Government would give them the necessary land, they would make arrangements to start off the work. They also tell me that they have enough financial resources coming from West Germany and in due course they may also possibly get the necessary machinery etc. from West Germany.

From

B.Romulus,
Honnegowdanahalli,
Talavedi P.O.

To

The Minister for Finance,
Government of Mysore,
Bangalore.

Sir,

I had occasion to discuss with you about the starting of a Boys Town in the Mysore State. A note on the scheme is appended herewith.

I belong to the society registered under the Act of 1860 and our Society has been working in the line for the last 80 years. We are running an orphanage for about 1000 inmates and 1000 outsiders with a high school in the suburbs of Bombay and all these 1000 inmates are picked up from the streets - waifs and strays - and fed and looked after by us. We not only educate them but also teach them handicrafts and other industries so that they may settle down in life as respectable citizens. Although this is a society started by West Germans with India as Headquarters, about 90% of the members are Indians and out of the remaining 10% a few of us are Germans who have already become Indian Nationals. I am myself an Indian National. We have the necessary experience to run a boys town on a large scale. As mentioned in the enclosed note we will try to get financial help and lot of equipment from West Germany in due course. Once we get the scheme going we are confident that we will not only make a success of it but we will try to make a model of it for others to follow. If our request for 3000 and odd acres of land is conceded early we will get on with the job as quickly as possible.

p.t.o.

You are aware that we have been working in Chamarajanagar area for the last 30 years.and We are also aware of your sympathy and anxiety to do some good to rehabilitate the poor waifs and strays of Mysore State and we feel certain that you will give us the necessary land very early to enable us to get on with the work.

Thanking you,

Yours faithfully,

(B.ROMULUS)

State Transport, Mines and Food

MINUTE

No. (M) 393/61-62.

Dated August 21, 1961.

This is with reference to the enquiry of the Minister for Law and Labour on the phone this morning regarding the release of land from the Punjur forests for Boys' Town.

DEPUTY SECRETARY TO GOVT. 12646 26 AUG 1961 AGRICULTURE & FOREST DEPTT.

I had personally inspected the area with the authorities of Boys' Town some where in the end of January this year and suggested the release of some portion of the land which did not contain tree growth. Subsequently after the change of port-folios, I sent the file to the Chief Minister on March 10.

6346 4 AUG 1961 GOVERNMENT OF MYSORE

I do not remember whether I have passed orders. I am of opinion that the area does not contain valuable species of trees and a portion of it could be spared for Boys' Town.

FINANCE DEPARTMENT
No.....
30 AUG 1961
GOVERNMENT OF MYSORE

The question regarding release of forest lands for the establishment of a Boys Town in Mysore was discussed to-day in the chambers of the Secretary to Government, Agriculture and Forest Department.

The following were present:-

Shri T.V. Reddi,
Secretary to Government, A&F Dept.

Shri G.Mathias,
Secretary to Government, F.D.

Shri Nasir ud din Ahmad
Deputy Commissioner,
Mysore District, Mysore.

Shri Shri Krishna,
Under Secretary to Government,
Planning, Housing & Social Welfare Deptt.

Shri K. G. Bellubi
~~Representative from~~ Certified Schools,
Senior Inspector of

Shri S.V. Prabhu,
Under Secretatary to Government,
Agri. & Forest Department.

After general discussions on the issue involved ~~It~~ was decided that a decision regarding release of forest land could be taken only after spot inspection of the area by the following officers:-

Secretary to Government,
Agriculture & Forest Dept.

Secretary to Government,
Finance Department.

Chief Conservator of Forests
in Mysore, Bangalore.

One Retired Chief Conservator
of Forests.

Deputy Commissioner,
Mysore District, Mysore.

A.1.(e) 128-1974-60 61
date 13.XI.61

62-63

It was also agreed that Brother Romulus and Brother Williams should be requested to accompany the officers at the time of the inspection.

(ii) The requirements of 3,000 acres in Chamarajanagar Taluk be if necessary limited to smaller extents depending upon the facilities available, these areas being contiguous to the areas which are under cultivation and being capable of being converted into a ~~viable~~ viable unit as would give them the necessary facilities to locate the Boys Town and cultivate the lands taking into consideration the availability of drinking water, means of communications, power supply, etc.

(iii) ~~It was also decided that~~ the areas round about Biligiri Ranganna's Hills ~~should~~ be inspected and then the question of release of 500 acres decided after ~~visiting~~ inspecting the teak plantations. The area to be released will be exclusive of the area, which is needed for khedda operations, If there be any deficit in the total requirements area of 500 acres ~~the~~ areas other suitable will be selected ~~so as to accommodate~~ to the extent of the deficit ~~being~~ the areas being contiguous to the land now asked for.

and

(iv) ~~It was also agreed that the team consisting of the above officers should visit~~

these areas be visited from 2nd to 5th December 1961 the party leaving Bangalore at 1.30 P.M. on Saturday, the 2nd December, 1961.

To

The Secretary to the Government of Mysore,
Agriculture and Forest Department,
Bangalore.

Sir,

Subject: Forest areas released for various purposes from the Forest Department since 1956 onwards.

Refce: Your letter No.AFD 96 FGN 60 dated 12-9-60.

With reference to the above I write to enclose herewith the (1) statement showing the extent of land coming under submersion in each villages coming under full submersion in Bhadra and Sharavathi Valley Hydro Electric Project, and the extent utilised for the projects and the extent remaining over (2) the extent of State Forest released so far, for being alloted to the expropriated ryots and tenants under the above projects.

The waste lands available with the Revenue Department is not available in this office and the same has to be obtained from the Revenue Department.

The particulars as to the area granted to the expropriated ryots and tenants will be supplied shortly as the information has not yet been furnished by the Special Land Acquisition Officer, who have been reminded to day to furnish the same early.

The Forest lands released for various purposes from 1956 onwards is not available in this office and the Forest Department has to be addressed in the matter.

Yours faithfully,

17/2

(M.Vazeer Ahamed)
Spl.Officer for Rehabilitation,
